## Questions to grow on

It will be amazing to see how your child's answers change as his language develops! Your two-year-old may respond to your questions with just a few words, while three-year-olds may have a short conversation with you about each of their answers. Four-year-olds might tell short stories to answer your questions, and five and six-year-olds can tell longer stories using complete sentences. Use the other side of this page if necessary.
