

Communication Board

Communication boards are one way that friends can share thoughts and information! Julia taps these small words and pictures on her talker to share her ideas. Try printing out this page to support connection among children who communicate in different ways. Grown-ups should use the board to model language, focusing on what they and the children in their care might want to say. Use it at home, school, or anywhere you think it will be helpful!

I/me 	yes 	eat 	happy 	home 	music 	Julia
