

Senses After a Rainstorm

Watch this video of Oscar and Abby playing outside after the rain. They're using four of their senses: touching, hearing, seeing, and smelling. Color this picture and talk about:

- What are they **touching** with their hands? How do you think it **feels** to them?
- What sounds do you think they **hear**?
- What do they **see**? What are they **noticing**?
- What might they **smell**?
